

## TECHNICAL DATA SHEET

# SAFETY SOLVENT

NON-FLAMMABLE ENERGIZED  
ELECTRICAL CLEANER

**PART NUMBER(S):**

EA621

AEROSOL CAN NET WT 20-18 OZ

Safety Solvent is a high performance electrical cleaner and degreaser that dries quickly without leaving residue. With its 25,000-volt dielectric strength, Safety Solvent can be sprayed directly into motors while in operation. Its powerful formula quickly removes dirt, grease, grime, glue, wax and oil. High dielectric strength and non-flammability make our Safety Solvent safe for use on electrical equipment when electrical current exists, or when there is a residual electrical potential from a component, such as capacitor. Our Safety Solvent makes cleaning of energized parts quick and simple without damaging them. **NOTE: Protect rubber parts from spray. Energized equipment use only. Not to be used for motorized vehicle maintenance or their parts. Do not spray on Plexiglass and most other plastics and paints.**

**WHO:** Electricians, HVAC technicians, plumbers, carpenters, building engineers, mechanics, machine operators, golf course superintendents, sheet metal shops, fleet departments, public works, public transportation, municipalities, power plants, gas and oil companies

**WHERE:** Industrial equipment, HVAC equipment, refrigeration equipment, marine equipment, aircraft parts, generators, motors, pumps, power tools, processing equipment

**WHAT:** Dirt, grease, grime, glue, wax and oil

**FEATURES AND BENEFITS:**

- Non-conductive and non-CFC
- Fast drying and residue-free
- High discharge flush valve

**DIRECTIONS:** Spray parts liberally and allow to run off. Allow to air dry or use soft wiper. Repeat if necessary.

**ACTIVE INGREDIENTS:** Tetrachloroethylene (127-18-4), Dichloromethane (75-09-2) and Carbon Dioxide (124-38-9).

**HMIS RATINGS:** Health: 2; Flammability: 2; Physical Hazard: 0; Personal Protection: X.

**TOLL FREE:**  
**800.425.8070**
