EE0038-SG (12" SAFETY GREEN)

EE0039-RE (18" RED)

EE0040-YW (24" YELLOW)

EE0041-BL (36" BLUE)

Supreme Bungee Straps are heavy duty industrial straps with nylon "S" hooks, which are proudly made in the USA. Due to the high tech properties of the material and the superior quality of the hook ends, they serve as a safer and better performing replacement for any other bungee cords. Our Supreme Bungee Straps are made of a unique blend of polyurethane that won't break, crack or become brittle. They deliver high performance under extreme weather conditions such as UV, hot and cold temperature variations, water, and ozone; they are also resistant to diesel fuel, oil and chemicals. Supreme Bungee Straps stretch up to twice their original length. Our nylon end hooks are molded into the cord/strap ensuring they will not come apart. Available in a variety of sizes and colors.

WHO: Facility maintenance personnel, manufacturing plants, public works personnel, mechanics, construction and industrial workers

WHERE: Utility trucks, storages, utility sheds, vehicles, dollies

WHAT: Ladders, pipes, heavy loads, loose parts, equipment, cables and wires, tarps, carpet rolls, hoses

FEATURES AND BENEFITS:

- Made with unique polyurethane blend and nylon hooks that won't scratch
- UV rated and chemical resistant
- Stretches up to 2x original length
