

SLIME AND ODOR TREATMENT
FOR CONDENSATE PANS

PART NUMBER(S):

EB0720-7 (7 TON UNITS)

EB0720-20 (20 TON UNITS)

Gel Pan Tabs are a long-lasting treatment for keeping condensate drain pans and lines free of accumulations commonly found in condensate pans. Each tablet gels when wet, clinging to the side or bottom of the pan, locking it in place so it won't clog the drain. Gel Pan Tabs feature a slow-release formula; just one tablet can last an entire cooling season and it dissolves completely, so there is nothing to retrieve from the unit. Regular use of Gel Pan Tabs will help prevent drain pan overflows and musty, foul odors in air conditioning systems.

WHO: HVAC maintenance, building engineers, hospitality, maintenance crews, hospitals, school districts, government facilities, facility maintenance personnel

WHERE: Condensate pans, drip pans

WHAT: Slime, sludge, odor

FEATURES AND BENEFITS:

- Aid in breakdown of slime in pans and prevent musty odors
- Gel up to lock in place and dissolve completely
- Slow release and long lasting

DIRECTIONS: Place tablet in drain or condensate pan. Monitor usage and replace tablet when completely dissolved.

ACTIVE INGREDIENTS: Quaternary Surfactants

HMIS RATINGS: Health: 1; Flammability: 0; Physical Hazard: 0; Personal Protection: B
