PART NUMBER(S):

EB2660

16 OZ NET WT

Capture is a unique, odor-eliminating, absorbent powder that soaks up 100 times its weight. It is ideal for easy pick up of vomit, body fluids and most liquids. Capture is designed to quickly turn most liquids into a gel-like material, making clean up fast and easy. To scoop up absorbed liquids and dispose of the unwanted material, you can use a dust pan, shovel, or even handy cardboard scraps. Because Capture is water-soluble, the remaining gelled liquid can even be flushed down the drain.
