

## TECHNICAL DATA SHEET

# GEL BAC PLUS™

VISCOUS DRAIN FLY REPELLENT  
AND DRAIN MAINTAINER WITH  
ENZYMES AND CITRONELLA

### PART NUMBER(S):

EQ6150  
32 FL OZ (0.946 L)

EB6150-4  
1 GAL (3.785 L)

**GEL BAC PLUS™** is a viscous liquid that clings to pipes and drains to rid them of drain fly infestations, all the while working to break down odor-causing organic matter. **GEL BAC PLUS™** repels annoying and unsanitary drain flies with Citronella, a natural fly repellent. It also contains enzyme-producing bacteria which will multiply and digest organic waste, reduce volume of solids, and kill odors. **GEL BAC PLUS™** contains no acids or corrosives. It is biodegradable, non-toxic and non-caustic. It can be used in drains and septic tanks, as well as in conjunction with a trigger sprayer.

**WHO:** Plumbers, custodians, facility maintenance personnel, office building engineers, hospitality staff, restaurant owners, hospitals, schools, apartments, dog kennels, nursing homes, prisons, transportation, waste management facilities

**WHERE:** Drains, septic tanks, in and around urinals

**WHAT:** Odor, waste, urine, drain flies

### FEATURES AND BENEFITS:

- Biodegradable, non-toxic and non-caustic
- Digests organic wastes, eliminates odors and repels drain flies
- Environment-friendly and user-friendly

**DIRECTIONS:** DIRECTIONS FOR USE AS A DRAIN FLY REPELLENT: For best results, apply product at time of lowest drain use, typically at the end of the day. Initially, add 8 oz. to each drain. **GEL BAC PLUS™** will cling to the sides of the drain pipe and allow for a constant release of the citronella fragrance to deter flies throughout the night. It is easily removed with hot water and does not pose any risk of clogging drains. Repeat daily as necessary until desired results are achieved. Then apply 4 to 8 oz. per week as a maintenance dosage. DIRECTIONS FOR USE AS A DRAIN MAINTAINER: Pump out grease trap, then add 1 qt. per 24 cu. ft. capacity. One week later, begin preventive maintenance schedule: At the end of the day, flush lukewarm water down each drain leading to trap for 5 seconds to clear line of harsh chemicals which can reduce bacterial activity. Dilute 1/2 pint with 1 qt. of lukewarm water and pour approximately half of the solution down each drain. Let mixture remain in drains overnight. The next morning, flush lukewarm water down drains for 5 seconds. DIRECTIONS FOR USE AS A URINE ERADICATOR: Simply insert a trigger sprayer into the bottle and you have a ready-to-use product which will eliminate the odors produced from the organic material and decomposed salts associated with urine. The area should first be cleaned of excess material. If the area is not moist, use lukewarm water on the area to be treated with product.

**ACTIVE INGREDIENTS:** Water (7732-18-5), Hydroxypropyl methylcellulose (9004-65-3), Fragrance (N/A), Live bacterial cultures and enzymes (N/A)

**HMIS RATINGS:** Health: 1; Flammability: 0; Reactivity: 0; Personal Protection: B.
