

**Product Name:**  
**PAINT STRIPPER**

**Part Number(s):**  
**EA860 (18oz aerosol cans)**

**Product Description:**  
Paint Stripper is a high power, fast-acting solvent that quickly blisters paints, varnish, acrylics, epoxies, and lacquers for easy removal. Sprays on, then gels up to cling on uneven and vertical surfaces. Works fast to remove paint from metal, wood, plaster, concrete, glass & more; even effective against very old paints. Can be wiped off, scraped off, or simply flushed away with a heavy water blast.

**APPLICATIONS:** truck & auto body refinishing, plaster, concrete, wood & metal furniture refinishing, decal removal, brick, stone, signs, antiques, pumps, meters, general refinishing, super graffiti removal, masonry, glass, ceramics

**EFFECTIVE AGAINST:** paints, varnish, acrylics, epoxies, lacquers

**FEATURES AND BENEFITS:**

- Works in minutes with visible blistering action.
- Removes paint, varnish, and lacquers from porous and non-porous surfaces.
- Gels up to cling on uneven and vertical surfaces.

**DIRECTIONS:** (Complete directions on product label.)

SHAKE VIGOROUSLY BEFORE EACH USE. Make certain surface is clean & dry. To avoid possible skin contact, do not stand downwind of spray/mist during application. Holding can 8 - 10 inches from surface, apply a heavy, even coat and allow product to remain on surface for several minutes, even after blistering action has occurred. Remove residue with a scraper, putty knife, cloth, or a strong water spray. If necessary, repeat application after surface is dry. Clean valve by turning can upside down and applying short burst.

**ACTIVE INGREDIENTS (CAS NUMBER):**

Methylene Chloride (75-09-2); Toluene (108-88-3); Ethanol (64-17-5); Methanol (67-56-1); Liquefied Petroleum Gas (68476-85-7)

**NFPA RATINGS:**

Health-3; Flammability-3; Reactivity-1
